

AVE JONATHAN CAHYADI

M: (+61) 405 246 865 - E: ave.cahyadi@gmail.com – W: <http://au.linkedin.com/in/avecahyadi>

WORK EXPERIENCE

Comptel

Solutions Architect (Service Orchestration/OSS Fulfilment); 03/2015 – Present

- Led a team of four to seven architects, delivering OSS/fulfilment solution for a tier-1 telecommunication provider in Australia
- Work as a consulting architect to a large systems integrator

Cisco Systems

Solutions Architect (OSS Practice); 04/2014 – 03/2015

- Developed Cisco OSS project delivery methodology templates and training material
- Led a team of up to about fifteen software developers (mostly offshore) at Cisco
- Significantly contributed to a successful pre-sales pursuit of an inventory product within three months of joining Cisco

Alcatel-Lucent

Domain Architect (OSS/BSS); 07/2010 – 11/2011 and 03/2012 – 04/2014

- Designed OSS fulfilment solutions for tier-1 telecommunication providers in Australia and in New Zealand
- Actively contributed to a number of pre-sales pursuits, including a multi-year, multi-million dollars flagship greenfield OSS project for a tier-1 telecommunication provider in Australia
- Mentoring new team members

Alcatel-Lucent

Software Engineer (Java/Perl/PLSQL/Oracle Service Bus/Oracle SOA Suite); 08/2005 – 07/2010

- Developed a number of OSS fulfilment solutions for telecommunication providers in Australia, Singapore and Hong Kong using Java and PL/SQL
- Developed a performance-test automation-tool based on Perl.

EXPERTISE

- **Telecommunication OSS:** over five years of experience as an architect, five years as a software developer. Practical experience in applying TMForum Business Process (eTOM) and Information Framework (SID)
- **Leadership:** experienced leading a team of architects and software developers
- **Software Methodology:** practical experience with waterfall, iterative and agile (Scrum and Kanban) models
- **Business Analysis:** experienced in translating stakeholders requirements into technical requirements and user stories which are testable, viable, necessary and can be understood by the project team; experienced in working with customers to prioritise features into different iterations
- **Technical Experience:** past implementation experience using the following technologies: Java, PL/SQL, Perl, AxiOSS (Cisco Prime Order Fulfilment), Oracle Service Bus and Oracle SOA Suite
